Tools for the New Work™

Your **time** is worth a lot.

We know how busy you are, so we've made it easy and rewarding for you to register your new Adobe® software. One of the ways we've done this is by reducing the number of questions we ask you to complete.

Your **registration** is also worth a lot.

When you register, you'll receive early upgrade notifications, access to helpful training resources and complimentary standard* or paid support. Your registration also helps us provide you with relevant communications, exclusive offers and new product information. When you contact us post-registration, we'll already know who you are and we can get a jump-start on serving you effectively and efficiently.

Once you've registered you can also quickly change or update your personal profile and permissions, at any time.

* Support options may vary by country. Not all support options are available for all products. Direct, person-to-person support for some products may be available only on a fee basis, on a pay-as-you-go basis, or through an annual support contract. For more information, please visit www.adobe.com/support.

Register today. Any way you want to.

Choose one of these three options:

- **From the Help Menu:** Launch your application and go to the Help menu. Select Online Registration or Registration.
- **Web:** Go to www.adobe.com/register.
- **Mail:** Detach and mail the product registration card. For customers in Canada, please affix appropriate postage on the registration card before mailing. Postal service will not deliver without postage.

Keep your serial numbers handy.

Your product's CD holder includes labels with your serial number. You can apply these labels to your manual or any other secure location for easy access. If registering by mail, you must affix a label to the registration card. You'll need your serial number to receive technical support and future upgrades.

Need more information?

Go to www.adobe.com and find the Adobe Web site specific to your country or your region.

Expert Support takes the worry out of work.

We also offer several flexible options for more advanced technical support. For more information go to www.adobe.com/expertsupport or give us a call at 1-866-MY ADOBE (1-866-692-3623).

Su tiempo vale mucho.

Sabemos lo muy ocupado que está y, por ello, queremos hacer que el proceso de registro de su nuevo software Adobe® sea más fácil y compense más. Una de las maneras de conseguir este objetivo es disminuir el número de preguntas que tiene que contestar.

Su registro también vale mucho.

Al registrarse recibirá notificaciones anticipadas de actualizaciones, obtendrá acceso a útiles recursos de capacitación y soporte de pago o gratuito estándar.** Y, cuando se ponga en contacto con nosotros tras el proceso de registro, ya sabremos quién es usted, y podremos pasar directamente a atenderle de forma efectiva y eficiente.

**Las opciones de soporte pueden variar en distintos países. No todas las opciones de soporte están disponibles para todos los productos. El soporte directo, de persona a persona, para algunos productos puede estar disponible sólo mediante pago de una cuota, pagando cuando se necesita asistencia o mediante un contrato de soporte anual. Para más información, visite www.adobe.com/support.

La manera más fácil de registrarse es también la que más compensa.

Elija una de estas tres opciones:

- **En el menú de Ayuda:** inicie su aplicación y vaya al menú Ayuda. Seleccione Registro en línea o Registro.
- **En la Web:** diríjase a www.adobe.com/register.
- **Por correo:** desprendia y envíe por correo la tarjeta de registro del producto. Los clientes de México deben poner las estampillas apropiadas en la tarjeta de registro y enviar ésta a:

Skymex S.A. de C.V.,
JFK/SEA/781795,
Apartado Postal 9-238,
Administración de Correos Núm. 9,
15100 México, D.F., México.

Tenga sus números de serie a mano.

La funda del CD del producto incluye etiquetas con su número de serie. Péguelas a su manual o guárdelas en un lugar seguro al que pueda acceder fácilmente. Si registra el software por correo, debe pegar una etiqueta a la tarjeta de registro. Necesitará su número de serie para recibir soporte técnico y actualizaciones en el futuro.
